

**Kamaz 7403 Engines**

BCS can offer the Diesel engine KamAZ 7403 with 260 horsepower is an 8-cylinder four-stroke V-shaped unit. It has a standard base, and the plate and the upper part are completely similar to Euro 1 motors.

The structure of the diesel electric motor KAMAZ-740, produced in Naberezhnye Chelny, has many advantages over its counterparts. So, the electromotor KAMAZ-740 is equipped with small-sized parameters and smaller weight in comparison with YAMZ-238. In addition, it operates at a higher speed of the crankshaft.

BCS have the option of supplying either Brand New or Refurbished Engines. Original and genuine engines.
